### STUPENDOUS SALE OF SHOES!

Commencing Wednesday, January 2, 1895.

For weeks we have been preparing to give the people of Bridgeport and vicinity the biggest sale of shoes they ever saw. We have bought thousands of dollars werth of goods of manufacturers and wholesulers, surplus goods, countermands, closed-out lines, etc., at prices which will enable us to sell them below the regular wholesale figures-Whenever a genuine bargain was to be had we got it, no matter how large the amount involved. We have almost doubled our store space to make room for the immense quantity of goods. Remember January 2.

### Safe Investment.

Sate Investment.

Seven per cent debentures, interest paid semi-annually by New York draft of the Building and Loan Association of Dakota. \$2000 of first and non transferable mortgages deposited with the trustee to protect each \$1000 sold, trustee's endorsement of this fact on each bond sold, issue limited by law to 50 per cent of their assets. Debentures are a preferred stock, and all the assets are holden for the payment of them; in any event there will be \$3 of assets behind every dollar of outstanding debentures. With judicious management, which enabled them to pay matured principal and interest promptly during the past year, as ever, and make a gain in assets of \$74,000, the outlook for the future is promising. I believe an investment here to be as saie as anything offered and one which will prove satisfactory in its results. Bonds run three or seven years, optional with the holder. I would request intending investors to write to the present bank commissioners of Connecticut for their opinion of this company; also to the ex-commissioners, who have all thoroughly examined the company. Their fudgement in the case we should like you to have. We court the strictest investigation of condition, standing and management. For saie by
